PROJECT EXPERIENCE

FRONT-END DEVELOPMENT   ZUITT CODING BOOTCAMP

jaymardolz.github.io/b335-dolz-capstone-1/

Created a static and responsive web portfolio during our 1 day session of Capstone Building, utilizing HTML5, CSS3, Bootstrap, and Git for version control, hosted on GitHub.

BACK-END DEVELOPMENT   ZUITT CODING BOOTCAMP

http://ec2-18-222-162-141.us-east-2.compute.amazonaws.com/b2

Developed a dynamic and scalable Back End Capstone project, leveraging technologies such as Node.js, Express, MongoDB, and Git for version control, to create a robust and efficient web application with seamless data management and retrieval.

FULL-STACK DEVELOPMENT   ZUITT CODING BOOTCAMP

http://zuitt-bootcamp-prod-335-6352-dolz.s3-website.us-east-1.amazonaws.com/

Engineered a comprehensive Full-stack Capstone project using React.js for the frontend and Node.js with Express for the backend, integrated with MongoDB for database management, to deliver a responsive and feature-rich web application, version-controlled using Git and hosted on AWS.
